

ARE YOU AT RISK FOR H1N1? FIND OUT.

JOIN THE H1N1 'SWINE' FLU VIRUS STUDY.

The H1N1 'swine' flu virus is a new virus that has made thousands of people around the world sick this year.

We want to learn more about who is at risk of getting sick from the H1N1 'swine' flu virus, and how we can best manage its spread.

If you participate in this study, we will test you for antibodies to the H1N1 'swine' flu virus and provide you with an explanation of your results. Having antibodies may mean that you have some protection against the virus and are less likely to get sick in the future.

You are eligible if:

- You are 18 years of age or older
- You live in Ontario

To participate you must:

- Provide blood samples at your local laboratory
- Complete an online questionnaire
